

ContainerPower Energy Solutions

12v fully automatic multi-function charging inverter

Overview

What is a multi-functional inverter/charger?

This is a multi-functional inverter/charger, combining functions of inverter, solar charger and battery charger to offer uninterruptible power support in portable size.

What is a Rego 12V 3000W inverter charger?

The REGO 12V 3000W inverter charger combines the inverter and battery charger into one complete powerful solution. 3000W continuous pure sine wave AC output and peak power up to 9000W, allows you to power most heavy-duty appliances easily.

What is a 1000W modified sine wave inverter with charger?

1000W modified sine wave inverter with charger Genius power is a high-quality 1000W DC 12A Fully Automatic DC to AC Power Inverter with Charger, manufacturer from Taiwan since 1984. Reliable Charging Solutions: Advanced Battery Chargers for Industrial Applications. For automotive applications, our car inverters are second to none.

What is a Multiplus inverter?

The MultiPlus, as the name suggests, is a combined inverter and charger in one elegant package. Its many features include a true sine wave inverter, adaptive charging, hybrid PowerAssist technology, plus multiple system integration features. The MultiPlus will prevent overload of a limited AC source, such as a generator or shore power connection.

What is a solar inverter charger?

All in one inverter charger: we also called Solar inverter charger, it has built-in MPPT solar charge controllers, you can directly use solar energy, AC grid, generator Or a combination of several to charge your batteries. It is a very common inverter, which is widely used in household solar off-grid systems,

RVs, motorboats, etc.

How does an inverter charger work?

Designed for a simple and secure installation process, making setup quick and hassle-free. This inverter charger efficiently charges your battery to 100% using bulk, boost, float, and equalization modes, optimizing battery lifespan. Switch from utility power to battery power in just 10 milliseconds, ensuring that your load remains uninterrupted.
