

ContainerPower Energy Solutions

20KW energy storage solar power station

Overview

What is a 20kW Solar System?

A 20kW solar system is a type of solar power system that typically has a capacity of 2400units per month. A solar system is usually paired with the 50-60 solar system which can be mounted on rooftops or ground mount systems. There are mainly three types of solar systems which are available in the Indian market.

What is a 20kWh battery storage design?

This is 20kwh battery storage design for solar off grid system. This OEM 48v 400 Ah battery pack created with only 16 prismatic 3.2V cells in series versus the industry's standard practice of 100's AA Grade Lithium battery cells in series. Our A+++ Cells are UL Listed and designed for over 7000 cycles at 80% depth of discharge.
