290 Monocrystalline PV Module Price

Overview

Low wholesale price on the latest Hyundai HiS panels with 4-bus PERL mono cells. Authorized HHI Solar supplier.

Low wholesale price on the latest Hyundai HiS panels with 4-bus PERL mono cells. Authorized HHI Solar supplier.

Hyundai PERL solar cells use Local Back Surface Field (LBSF) technology on the back side. PERL cells are high-efficient monocrystalline cells developed by Hyundai Heavy Industries which adopt LBSF (Local Back Surface Field) technology on the back side. PERL technology provides ultra-high efficiency.

Our standard shipping charge is \$250 for up to 11 panels and it is increased by \$25 for every 4 additional panels. In the event, the product is only available on East or West coast custom quote will be sent to you before the order is processed. Normally, we are able to deliver solar panels within 7.

With its top performance and completely black design the Q.PEAK BLK-G4.1 290 is the ideal solution for all residential rooftop applications thanks to its innovative cell technology Q.ANTUM. The world-record cell design was developed to achieve the best performance under real conditions – even with.
