

## ContainerPower Energy Solutions

# 380v grid-connected inverter

## Overview

---

What is grid tie solar inverter?

Grid tie solar inverter with high performance MPPT and APL functions, simply connect the solar power inverters to solar panel system. This type of solar pv inverter often used in residential solar power system, battery energy storage system and wind power system.

What is grid connected inverter?

Grid connected inverter is a crucial component in solar power systems that integrate with the electrical grid. For series of 300 watt to 1000 watt rated power inverters, feature with pure sine wave output, no battery design, wide DC input (20V-50V DC) and AC output (90-140V AC / 180-260V AC) range.

What is a single phase grid on inverter?

For single phase grid on inverter, this type of solar inverter converts direct current (DC) from solar panels into alternating current (AC) that matches the voltage, frequency, and phase of the electrical grid. It uses maximum power point tracking (MPPT) to optimize the energy harvest from solar panels.

How much power does a grid tie inverter have?

On grid inverter comes with 1500 watt AC output power, max DC input power of up to 1600 watt, LCD, convenient for the user to monitor main parameters, transformerless compact design, high efficient MPPT of 99.5%. 1.5 kW grid tie inverter often used in solar farms and rural electrification.

What is a 3 phase grid tie inverter?

Pure sine wave three phase 50kW grid tie inverter without transformer for on grid solar system. 3 phase grid tie inverter has wide input voltage range of 200-820V and wide output range of 280V-480V, max DC input voltage to 850V, multi-language LCD display, 2 way MPPT, MPPT efficiency more than 99%.

How to install a grid tie inverter?

Simply connect the solar panel directly to the on grid inverter, no need to connect the battery again. The waterproof grade of the inverter grid tie 1000W is IP23, and the installation mode is wall hanging. Good price 180-450V DC to 230V AC single phase grid tie inverter for home solar power system.
