Collect Flybuys points when you shop in-store or online! Bunnings Workshop is an online community for D.I.Y. and gardening discussion, advice and inspiration.

Can ND 2034 battery pack perform at -20°C?

The ND 2034 battery pack can perform at -20°C for low temperature applications, as the low internal impedance enable the cells to deliver good capacity and discharge current. (Note, in low temperature applications, we recommend testing the device at temperature to validate performance). CH-series chargers are recommended for these batteries.
