

## ContainerPower Energy Solutions

# 8 billion yuan invested in energy storage battery project

**Efficient  
Higher Revenue**

- Max. Efficiency 97.5%
- Max. PV Input Voltage 600V
- 150% Peak Output Power
- 2 MPP Trackers, 150% DC Input Oversizing
- Max. PV Input Current 16A, Compatible with High Power Modules

**Intelligent  
Simple O&M**

- IP66 Protection Degree: support outdoor installation
- Smart I-V Curve Diagnosis Function: locate PV string faults accurately and automatically detect faults
- DC & AC Type II SPD: prevent lightning damage
- Battery Reverse Connection Protection

**Flexible  
Abundant Configuration**

- Plug & Play, EPS Switching Under 10ms
- Compatible with Lead-acid and Lithium Batteries
- Max. 6 units Inverters Parallel
- AFCI Function (Optional): when an arc-fault is detected the inverter immediately stops operation

## Overview

---

On February 25th, it's reported that the first phase of the Zhongneng Ruixin energy storage battery project, with a total investment of Yuan 8.1 billion and located in Tongxiang High tech New City, has entered the trial installation stage, mainly constructing battery cells, production.

On February 25th, it's reported that the first phase of the Zhongneng Ruixin energy storage battery project, with a total investment of Yuan 8.1 billion and located in Tongxiang High tech New City, has entered the trial installation stage, mainly constructing battery cells, production.

On February 25th, it's reported that the first phase of the Zhongneng Ruixin energy storage battery project, with a total investment of Yuan 8.1 billion and located in Tongxiang High tech New City, has entered the trial installation stage, mainly constructing battery cells, production workshops.

Recently, China's energy storage battery industry has ushered in a new round of investment boom, with five key projects intensively signed or started construction, with a total investment scale of over 5.8 billion yuan, and technology routes covering multiple fields such as vanadium batteries.

Last year, Zhai Gang, the director of the Sichuan Provincial Department of Economy and Information Technology, predicted that by 2025, the output value of the entire industrial chain of power batteries in the province would reach 500 billion yuan. To clarify the layout ideas of this region in the.

How many billion yuan is invested in energy storage battery production?

The investment in energy storage battery production stands at approximately **\*\*1.** **\*\***The sector has gained significant traction, with investments reaching up to **\*\*2.** **\*\***In recent developments, companies and governments alike.

On the morning of September 6, at the 24th investment and negotiation conference, the project of Zhongneng Ruixin Xiamen production base was officially started on the completion of major projects in Xiamen. Zhongneng Ruixin battery research and development and production construction project

plans.

Hubei Yiwei Power Co., Ltd. (hereinafter referred to as "Yiwei Power"), a subsidiary of Huizhou Yiwei Lithium Energy Co., Ltd. (hereinafter referred to as the "Company"), plans to sign a "Contract" with the Management Committee of Jingmen High-tech Industrial Development Zone (hereinafter referred.
