

ContainerPower Energy Solutions

Algeria Group Solar Energy Storage

Overview

What is Algeria's solar power supply chain?

The Algerian solar power supply chain grew significantly in the last decade and now seeks to add IPP development, engineering and design capabilities, EPC services, inverters manufacturing, storage solution manufacturing, universal certification expertise, and operations and maintenance services.

How much solar power does Algeria have?

By the end of 2023, Algeria had 437 MW of solar generation capacity, according to the national Commission for Renewable Energies and Energy Efficiency (CEREFÉ). The country has an average of 3,000 hours of sunshine per year and global horizontal irradiation of almost 1,700 kWh/m²/year in the north and 2,263 kWh/m²/year in the south.

Where are solar panels made in Algeria?

Alongside Zergoun, the manufacturer Laguna Solaire has 200 MW of annual capacity for solar panel production in Algeria. The production plant of Algerian telecommunications and renewable energy company Milltech has a facility in Mila, in the east of the country, with a production capacity of 100 MW for M3-based modules. Manufacturing hub.

Will Algeria build a one-gigawatt solar energy project in 2021?

Towards this end, Algeria launched a tender for a one-gigawatt solar energy project in 2021, comprised of building five power generation sites ranging from 50 to 300 MW each.

How many projects has powerchina done in Algeria?

They are significant milestones for the development of Algeria's new energy industry. Over these years, POWERCHINA has undertaken a total of 26 projects in Algeria, covering a wide range of areas including dams, irrigation, municipal infrastructure, civil engineering, grain storage, and new energy.

When will a 300 MW solar power plant be built in Algeria?

The state-owned China State Construction Engineering Corporation (CSCEC) began building a 300 MW solar power plant in Algeria's Oued Province in March 2024 as part of the Solar 1,000 MW program. The project is slated for completion by late 2025 or early 2026.
