

## ContainerPower Energy Solutions

# American standard three-phase inverter

## Overview

---

Why should you choose a 3 phase inverter?

Maximize energy production, safety, and achieve significant savings in Balance of System (BoS) and Operations and Maintenance (O&M) costs with our range of innovative and lightweight three phase inverters country save on energy costs and leave a smaller carbon footprint. Industries include: And more.

What is a CPS 3 phase string inverter?

The 50 & 60kW (55 & 66kVA) medium power CPS three phase string inverters are designed for ground mount, large rooftop and carport applications. The units are high performance, advanced and reliable inverters designed specifically for the North American environment and grid.

What is a Solis 30kW 3 phase inverter?

Discover the efficient and reliable Solis 30kW Three Phase Inverter with three MPPT, AFCI protection, and smart cooling. Perfect for commercial solar systems, backed by a 10-year standard warranty. Available now at Signature Solar.

What is a Solis s6-gc30k-lv-US 3 phase inverter?

The Solis S6-GC30K-LV-US Three Phase Inverter is specifically engineered for commercial and industrial solar energy systems. With a high efficiency of 97.7% and advanced safety features such as AFCI protection, this inverter is designed to maximize energy harvest and ensure reliable performance.

What is a CPS 200 kW 480 V three-phase string inverter?

The new CPS 200 kW-480 V three-phase string inverters are designed for ground mount applications. The units are high performance, advanced, and reliable inverters designed specifically for the North American environment and grid.

Which string inverter is suitable for commercial rooftop PV projects?

S6-GC30K-LV-US and S5-GC60K-LV-US string inverters are suitable for three-phase commercial rooftop PV projects with grid voltage of 240 or 208VAC. Both string inverters have high input currents, which enable support of larger PV modules without compatibility issues, better supporting power density and flexibility.
