Overview

Who is lithium storage?

As a professional lithium ion battery manufacturer in China, LITHIUM STORAGE designs, manufactures and sells advanced lithium-ion power Battery Solutions for Electrical mobilities and Energy Storage equipment.

Are lithium ion batteries a good energy storage system?

Lithium-ion batteries are the most favourable electrochemical energy storage system for electric vehicles and energy storage systems due to their high energy density, excellent self-discharging rate, high operation voltage, long cycle life, and no memory effect.

Where is the lithium-ion battery factory located?

Our lithium-ion battery factory is located in Wenzhou city of China, our technical team is set in Nanjing city of China, and we also have an international branch in the Dundee of United Kingdom.

Why should you choose lithium storage?

The innovative and professional R&D and operation team with more than 10 years of projects and industrial experience gives LITHIUM STORAGE competitive advantages in quality stability, rapid response, and professional solutions. The global economy is experiencing a transition from carbon-intensive energy resources to low-carbon energy resources.

What are the certifications of our lithium-ion battery factory?

Our lithium-ion battery factory has successively passed the authoritative quality management system certification such as ISO9001, IATF16949, ISO14001, and ISO45001, and our products have also received international certifications such as MSDS, UN38.3, UL, IEC62619, JET, and BIS.

Does lithium storage provide standard VDA size modules?

As a professional lithium battery solution supplier, Lithium Storage is supplying standard VDA size modules. Since the end of 2018, Lithium Storage started to provide Lithium Iron Phosphate Battery-LFP205Ah and LFP280Ah for electricity conversion of Toyota forklifts.
