

ContainerPower Energy Solutions

Angola container energy storage supplier

Overview

Where is BP preparing to sail in Angola?

The vessel is now preparing to set sail for Angola, where it will operate in the Agogo Integrated West Hub Development Project in Block 15/06 offshore Angola for Azure Energy, a 50-50 joint venture between BP and Eni, under a 15-year firm charter.

Who is container World Offshore?

Since 1983, Container World Offshore have provided specialized container conversions for the African Onshore market. We have recently began offering offshore containers that are all certified to DNV 2.7-1 and EN 12079. Our 32 years of experience mean that we have the dedication and expertise to handle any on and off shore container requests.

What are the major exports of Angola?

The majority of Angolan exports are petroleum products with most of this supply going to the United States of America and China. Ambitious government led development programs in building roads and other basic infrastructure for the nation are possible due to the booming Angolan oil exports.

What are container World Offshore standard shipping containers used for?

Container World Offshore standard shipping containers are used to carry international and domestic general purpose cargo. Offshore DNV reefers offer the perfect solution for the transportation of perishable goods. Container World Offshore offers a wide range of cargo baskets with certified slings and shackles.

Why is Angola a booming country?

Ambitious government led development programs in building roads and other basic infrastructure for the nation are possible due to the booming Angolan oil

exports. Container World Offshore standard shipping containers are used to carry international and domestic general purpose cargo.
