

ContainerPower Energy Solutions

Argentine lithium energy storage battery manufacturer

 **LFP 48V 100Ah**

Overview

YPF-Tec (UNILIB) is the first manufacturer in Argentina specifically focused on the development and production of lithium-ion cells and batteries. This project is a collaboration between Y-TEC (the technology company owned by YPF and CONICET) and the National University of La Plata.

YPF-Tec (UNILIB) is the first manufacturer in Argentina specifically focused on the development and production of lithium-ion cells and batteries. This project is a collaboration between Y-TEC (the technology company owned by YPF and CONICET) and the National University of La Plata.

Argentina's largest lithium brine operation and fourth largest measured and indicated lithium resource globally. A multi-phase growth opportunity integrating conventional and emerging technologies from multiple projects to become one of the latest lithium projects globally. Building bridges across.

Argentina Lithium & Energy Corp is focused on acquiring high quality lithium projects in Argentina and advancing them towards production in order to meet the growing global demand from the battery sector. The management group has a long history of success in the resource sector of Argentina and a.

Argentina's first lithium battery plant represents a major step in South America's energy transformation, driving local production, job creation, and EV infrastructure development. For Redway Battery, a Shenzhen-based OEM, this milestone highlights growing demand for high-quality LiFePO₄ batteries.

The country's lithium production is rising, and a new battery plant will be one of the first facilities to process the metal domestically, with hopes of adding value to its industry. (Image: Mariano Garcia / Alamy) Argentina will start operations at the first lithium battery cell factory in Latin.
