Our solar tiles provide an innovative and efficient roofing solution, delivering superior energy production while maintaining a clean and polished look. Designed for Australian homes, these tiles ensure your roof is not only strong and durable but also a source of.

A Concealed solar roof tile system that generates clean energy without altering the design of your home. Volt is purpose-built for tiled roofs, making it ideal for new homes or premium re-roofing projects. Works with Bristle Roofing profiles to match a range of tile designs and colours. Your solar.

Solar roof tiles, also known as building-integrated photovoltaics (BIPV), are growing in popularity among Australian homeowners who want the benefits of solar energy without the look of bulky rooftop panels. While they offer a streamlined, aesthetically pleasing design, solar roof tiles tend to be.

Solar-integrated roofing represents the next evolution in residential solar technology. Unlike traditional solar panel systems that mount on top of existing roofing materials, integrated solutions replace conventional roofing materials entirely. These systems function both as your primary roof.

Integrated solar tiles are roofing tiles that generate electricity—just like traditional solar panels—but are built into the roof structure itself. Instead of clunky frames and visible wiring, these tiles sit flush with your roof and blend into the overall design. They give you: If you're building.

Design your perfect solar roof by combining Tractile roof tiles with our seamlessly integrated solar tiles, for a prestige solution. With our award-winning patented design, our solar tiles generate up to 12% more electricity than regular solar panels, plus heated water, for a combined efficiency of.

Experience the future of solar energy with our cutting-edge solar roof tiles, designed for both residential and commercial applications. At Dragon Slate and Tile, we've redefined solar roofing technology, delivering superior energy efficiency without compromising aesthetics. We have revolutionised.
