

ContainerPower Energy Solutions

Austrian solar bifacial module company

Overview

A silicon was first patented in 1946 by when working at and first publicly demonstrated at the same research institution by , , and in 1954; however, these first proposals were monofacial cells and not designed to have their rear face active. The first bifacial solar cell theoretically proposed is in a Japanese patent with a priority date 4 October 1960, by Hiroshi Mori, when working for the company
