BYD Energy Storage Battery in New Zealand

INDUSTRIAL & COMMERCIAL HYBRID ENERGY STORAGE SYSTEM

POWER STATION ENERGY STORAGE SYSTEM

Overview

Does BYD sell solar batteries in New Zealand?

BYD does not list battery prices on its website. In fact, it doesn't even have a dedicated webpage in New Zealand for its solar batteries. BYD's battery prices vary based on its capacity, and its highly modular nature means there can be plenty of capacity options and therefore a lot of different prices.

What is a BYD battery?

Discover the unparalleled longevity and efficiency of BYD batteries, engineered to deliver reliable, modular power solutions for diverse applications. With cutting-edge technology and a commitment to sustainability, BYD leads the charge in revolutionizing energy storage solutions in residential grid tied and off grid systems worldwide.

Who makes BYD batteries?

BYD is the world's leading producer of rechargeable batteries: NiMH batteries, Lithium-ion batteries and NCM batteries. BYD owns the complete supply chain layout from mineral battery cells to battery packs. These batteries have a wide variety of uses including consumer electronics, new energy vehicles and energy storage.

Why should you choose BYD battery storage?

battery storage to help you meet your energy goals. BYD has developed market leading battery storage solutions suitable for any application. The modular low voltage (LV) and high voltage (HV) lines provide unparalleled flexibility for any residential or commercial purpose. their batteries have long been recognised as the best in the business.

Do BYD batteries come with a 10-year warranty?

BYD batteries come with a 10-year warranty. Part of the award-winning HV line, the HVS provides the highest voltage per module of any of the BYD

batteries. While an excellent all-around battery, particularly for grid-tie systems, the extra kick is great for applications that have high start-up loads.

How many units can a BYD LVL battery store?

The LVL model provides you with battery storage solutions all the way up to 983kWh (64 units). As with all models of BYD batteries, you have the ability to add in more units at a later date. You will require a BYD Battery Management Unit (BMU) alongside your LVL batteries.
