Barbados United New Energy Gas Station

Overview

Is natural gas a bridging fuel for Barbados?

Natural gas is the Bridging Fuel for Barbados on the pathway towards cleaner energy and national energy resilience. It is used worldwide for heating, cooling, production of electricity and other applications. Copyright 2023 National Petroleum Corporation. All rights reserved.

Who sells gas in Barbados?

Suppliers of gas across Barbados include Rubis, Shell and Esso. Welcome to the Barbados Pocket Guide, a comprehensive source of information about our island, it's people, culture and life in general.

Are there gas stations in Barbados?

This is where gas stations come into play. Reference to your map of Barbados will soon indicate that every parish on the island has a gas station so there's no need to panic should you wander and need to find the nearest one.

Why is gas expensive in Barbados?

Petroleum is expensive in Barbados due to the duties and taxes imposed by the government. However, all gas stations in Barbados charge the same rate because fuel prices are fixed by the government. See current gas prices. All gas stations accept cash and card payments.

What currency do gas stations accept in Barbados?

All gas stations accept cash and card payments. Visa and Mastercard are universally accepted, but you may have issues with Amex cards. If you are paying in cash, you'll need to pay in Barbados Dollars. However, gas stations may also accept US dollars at their sole discretion. The exchange rate used by gas stations is usually USD \$1 = BBD \$1.98.
