Base Station Battery Kit Outdoor Site

Overview

How do I connect a Wyze camera to a base station?

Connect your mobile phone to the network. Connect the base station. Connect to power and router (require Ethernet port). The light remain solid blue once it's connected. Add Wyze Cam outdoor. Power on the camera. Synchronise camera with base station. You will hear, "Pairing is in progress."

Does the KickAss powerstation have a battery?

Includes a 120Ah Lithium Battery that works with smart technology in our KickAss Lithium Power Station. Pre-Wired Design: The KickAss PowerStation comes pre-wired with 6 x Anderson style connectors, 4 x USB ports, and 2 x 12V sockets. A comprehensive power solution.

Can you put a 12V battery box in a camper?

Our heavy-duty 12V portable battery boxes can be securely mounted in your car, camper, or trailer. Easily remove the box when needed for more space or to power appliances at your campsite. Watch our Ultimate Dual Battery System Video for insights on dual battery fundamentals, chargers, isolators, and installation guides.

Can I remove my battery box from my vehicle?

You can simply remove your battery box from your vehicle if you don't need it taking up space, or if you want it to reach other appliances at your campsite. The Integrated KickAss Products 25A DC/DC charger on the battery box allows you to charge and maintain your battery from solar panels or your vehicle's alternator.
