

ContainerPower Energy Solutions

Belgium BESS portable power supply

Overview

Which energy storage system will be used in Engie Bess project?

Set for a grid connection in 2025 this project will deliver power to up to 96.000 households. Sungrow will supply 320 units of its cutting-edge liquid-cooled energy storage system PowerTitan for the ENGIE BESS project in Vilvoorde. The PowerTitan is an efficient, safe, and innovative storage solution that supports ENGIE to deliver energy.

How much power will Sungrow supply in Belgium?

The system will be one of the largest ever installed in Europe with a power capacity of 200MW/800MWh and is the first BESS project Sungrow will supply in Belgium. Set for a grid connection in 2025 this project will deliver power to up to 96.000 households.

Why is battery storage important for Belgium's energy transition?

Upon completion of the second 400MWh phase by the end of 2025, the entire installation will be providing clean, stable power for about 96,000 homes and helping stabilize Belgium's power grid. Battery storage is one of the most vital, yet too often overlooked, pieces of the energy transition jigsaw," said Moritz Rolf, Sungrow Europe Vice President.

Where is a Bess gas plant based?

That site is based at an Engie gas plant and the French utility is also developing an 80 MW/320 MWh BESS in Drogenbos, in Belgium's Flemish region. This content is protected by copyright and may not be reused.
