

ContainerPower Energy Solutions

Cambodia solar all-in-one home use

Overview

Is solar power transforming remote communities in Cambodia?

Solar power is transforming remote communities in Cambodia with affordable, renewable energy and the chance to live more productive lives. However, hundreds of other villages remain off the grid, and energy experts say Cambodia should be doing more to harness the country's immense amount of untapped sunlight.

How can Solar Partners help Cambodia?

We can help realise the goal of affordable and reliable power provision for all of Cambodia's energy users, ranging from industrial scale business developments to residential home users. For more information on our products and services, please email info@solarpartners.asia or phone +855 23 990 300.

Is solar a good option in Cambodia?

In the middle of Cambodia, including the load center of Phnom Penh, which is responsible for approximately 70% of national electricity demand, the peak solar resource measures over 1,900 kWh per square meter per year. Solar is also a good option for remote rural households that do not currently have access to the grid.

Who is ecosun (Cambodia)?

Since 2008, EcoSun (Cambodia) Co., Ltd has been providing Cambodian households with a comprehensive range of solar-powered appliances and solar solutions. From energy-efficient appliances to sustainable solar and hybrid systems, we provide solar energy solutions tailored to meet any energy needs.
