

ContainerPower Energy Solutions

Chad rechargeable lithium battery pack manufacturer

Overview

Who makes custom lithium-ion battery packs?

As a pioneer in future-ready power solutions, CMB is your trusted partner for custom lithium-ion battery packs. CMB's 21700 Li-ion battery packs offer advanced lithium-ion battery technology in compact and high-energy-density packaging. They provide superior power and longevity suitable for various applications.

What are rechargeable lithium batteries?

Rechargeable lithium batteries are popular for a wide array of applications. These battery packs provide excellent energy density, hold their charge for long periods when not in use, and do not experience "memory effect" in charging.

Who assembles a custom battery pack?

Assembled in the USA, Cell-Con designs and assembles custom battery packs to meet the needs of application regardless of complexity. If your application requires a larger format custom battery from 300Wh to 30kWh and beyond, we are ready to provide a solution.

Who makes custom battery & energy solutions?

Custom Battery & Energy Solutions For over 57 years, Custom Power has designed, developed, and manufactured high-quality, reliable, custom battery packs.

Is a custom battery pack better than a lithium-ion battery pack?

In some instances, a custom NiMH battery pack or custom alkaline battery pack may perform better than a lithium-ion battery pack, while keeping your costs lower. When involving our team of engineers early on in the design process, we can help assist you in choosing the proper custom battery solutions for your needs.

What is a lithium battery pack design?

The process encompasses basic and advanced lithium battery pack design features, each tailored to meet specific requirements. This includes intrinsically safe designs for harsh environments, custom battery chargers, custom molded enclosures up to IP68 for extreme protection, and complex battery management systems to ensure safety and longevity.
