Overview

In March 2024, BESS Coya, the largest battery-based energy storage system in Latin America, started operations. The facility is located in the Antofagasta region and has a storage capacity of 638 MWh, with 139 MW of installed capacity.

In March 2024, BESS Coya, the largest battery-based energy storage system in Latin America, started operations. The facility is located in the Antofagasta region and has a storage capacity of 638 MWh, with 139 MW of installed capacity.

Developer Atlas Renewable Energy has inaugurated the 800 MWh battery energy storage system (BESS) plant in María Elena commune, in the Antofagasta region. Chile Energy Minister Diego Pardow was present at the inauguration of the 200 MW/800 MWh BESS del Desierto, a project its developers describe as.

HEATHROW, Fla. (November 12, 2024) – Prevalon Energy, a leading provider of advanced energy storage solutions, is pleased to announce the signing of two new contracts with Innergex Renewable Energy Inc. (Innergex) to deploy state-of-the-art Battery Energy Storage Systems (BESS) at the San Andrés.

ENGIE obtained approval from the National Electricity Coordinator (CEN) to start commercial operation of BESS Coya, the largest battery energy storage system in Latin America to date. This system has a storage capacity of 638 MWh, with 139 MW of installed capacity. This co-located Battery Energy.

Utility and independent power producer (IPP) Engie has started commercial operations of a 139MW/638MWh battery energy storage system (BESS) in the northern region of Antofagasta, Chile. The BESS Coya project, which uses lithium-ion (Li-ion) batteries and has a 5-hour duration, has been paired with.

With transmission lines at overcapacity and permitting delays slowing the development of new grid infrastructure, battery energy storage systems (BESS) have surged as a profitable alternative for Chilean power producers. Since Chilean co-located storage assets don't require an Environmental

Impact.

Chile has taken a significant step in the development of clean energy with the inauguration of the largest battery energy storage system (BESS) in Latin America. This milestone marks a pivotal moment in the country's transition toward a sustainable and resilient energy future. The Desert BESS.
