# China-Africa new solar system sales

## Overview

---

According to a new analysis of China's solar panel exports data from energy think tank Ember, solar panel imports into the continent jumped 60% in the 12 months through June 2025, setting a record that could reshape electricity systems in many countries.

According to a new analysis of China's solar panel exports data from energy think tank Ember, solar panel imports into the continent jumped 60% in the 12 months through June 2025, setting a record that could reshape electricity systems in many countries.

Solar is taking off across Africa in a big way. According to a new analysis of China's solar panel exports data from energy think tank Ember, solar panel imports into the continent jumped 60% in the 12 months through June 2025, setting a record that could reshape electricity systems in many.

According to the Africa Solar Industry Association (AFSIA) in 2024, the continent added 2.5 GW of new capacity, taking the total installed solar to 19.2 GWp. Yet, even with this growth, the divide between Africa and the rest of the world is still widening. For decades, solar power has played a

Solar panel imports into Africa rose by a record 60 per cent in the 12 months to June 2025 according to a new analysis of China's solar panel exports, indicating a steady demand for clean energy in the world's least connected region. The data by international energy think tank Ember, show that.

African nations imported a record 1.57 gigawatts (GW) of solar panels from China in a single month—the strongest signal yet that the continent is embracing the sun as its most abundant resource. What makes this story remarkable is not just the headline numbers, but who is leading the surge. Rather.

Solar panel imports into Africa rose by 60% in the 12 months to June 2025, reflecting the positive momentum in the renewables segment That is according to a new analysis of China's solar panel exports data from energy think tank Ember. "The take-off of solar in Africa is a pivotal moment," said.
