Communication base station EMS lightning protection price

Overview

What is LEC lightning protection?

With this in mind, LEC has created a solution which makes it easy to implement a complete lightning protection system specifically designed with a tower's safety and operations in mind. A hybrid lightning protection package that offers a robust and cost-effective solution for communication towers.

What is a hybrid lightning protection package?

A hybrid lightning protection package that offers a robust and cost-effective solution for communication towers. Provides a total Lightning Protection System (LPS) which includes direct strike protection, surge protection and grounding. Why is this solution more efficient?

.

What is a total lightning protection system (LPS)?

Provides a total Lightning Protection System (LPS) which includes direct strike protection, surge protection and grounding. Why is this solution more efficient?

Reduces the risk of a direct strike by lowering the electric field to below lightning-collection levels within the protected area.

How does a lightning protection system work?

Reduces the risk of a direct strike by lowering the electric field to below lightning-collection levels within the protected area. Safely collects any strikes it cannot prevent from virtually any direction, creating a larger area of protection. Designed specifically for structures that require lightweight protection with a low wind profile.
