

ContainerPower Energy Solutions

Communication base station silicon solar cell manufacturer

Overview

Does solestial offer module-to-substrate integrations?

Solestial offers module-to-substrate integrations to deliver integrated solar power modules that are ready to install on your spacecraft. We are partnering with a variety of firms to offer complete solar array capabilities. Our flexible solar power modules can be integrated with a wide range of solar array deployment systems.

What is a silicon heterojunction solar cell?

Our ultrathin, flexible, silicon heterojunction solar cells offer 20%* efficiency and are the only silicon solar cells on the market capable of low-temperature annealing of radiation damage. We engineer our solar cells in-house for optimal performance in space, leveraging commercially available silicon wafers.

Who is Hanwha solutions qcells Division?

Hanwha Solutions Qcells Division is a complete clean energy solutions provider operating worldwide.
