

ContainerPower Energy Solutions

Communication high-voltage containerized power generation

Overview

What is a containerized generator set?

The durable and robust Containerized Series generator sets are ideally suited for independent power producer (IPP), mining, oil and gas, or any project where harsh conditions, challenging environments and the demand for reliable, continuous remote power exist.

Why should you choose a containerized generator set?

commercial buildings and government properties require dependable backup power in the event of utility outages to maintain continuity and prevent critical losses. The durable and high-performance Containerized Series generator sets would make the perfect power system for these types of applications.

What are containerized generator / packaged container and enclosure options?

Containerized generator / Packaged container and enclosure options provide alternatives to installations in existing or new buildings. We have significant experience with pre-packaged container and enclosure solutions for engine-generator sets, balance of plant equipment, and switchgear.

Why should you choose Cummins Power Generation containerized series generator sets?

Factory pre-integrated and customizable per site requirements, the new Cummins Power Generation Containerized Series generator sets can provide significantly shortened lead time for installation, and a lower cost of ownership via a flexible design.

Are containerized generators reliable?

Years of use in the rental, oil and gas, mining and other heavy-duty industries have tested the reliability, usability and durability of our containerized generators. Our primary design challenges in developing this line of

containerized generators were usability, reliability and functionality for the end user.

Why should you choose genset containers?

With our genset containers offer optimal performance in various site conditions. By maintaining high-quality standards for both the engine and the complete containerized power plant package, we ensure excellent reliability for your power and heat generation needs. Easy to install and disassemble, convenient for maintenance and inspection.
