Container battery plant energy in Lithuania

Overview

Will EU grant a battery storage project in Lithuania?

European Commission delegation visiting a Fluence battery storage project in Lithuania. Image: Energy Cells via LinkedIn. Lithuania can move ahead with a scheme to provide €180 million (US\$200 million) in grants to energy storage projects after it was approved by the EU.

Which power plant provides energy storage in Lithuania?

Kruonis Pumped Storage Plant provides energy storage, averaging electrical demand throughout the day. The pumped storage plant has a capacity of 900 MW (4 units, 225 MW each). Kaunas Hydroelectric Power Plant has 100 MW of capacity and supplies about 3% of the electrical demand in Lithuania.

How will Lithuania support energy storage projects?

Image: Energy Cells via LinkedIn. Lithuania can move ahead with a scheme to provide €180 million (US\$200 million) in grants to energy storage projects after it was approved by the EU. The programme will provide direct grants for the construction of the projects, with a target to support at least 1.2GWh of energy storage projects.

How much is energy storage in Poland?

The EU recently approved €1.2 billion for energy storage Poland under the TCTF, as covered by Energy-Storage.news, and in mid-2023 approved amounts under the TCTF in Hungary and Slovenia. Panelists at this year's Energy Storage Summit Central and Eastern Europe (CEE) in September described Hungary's scheme as one of the most advanced in the world.

What is Lithuania known for?

Lithuania is notable for being the site of one of the world's first major storage-as-transmission projects, with four 50MW/50MWh systems deployed by system integrator Fluence for transmission system operator (TSO) Litgrid, one

of which is pictured at the top of this article.
