Overview

Can a warehouse use solar energy in Costa Rica?

Solar energy has become an increasingly popular option for a variety of sectors, and warehouses are no exception. In Costa Rica, with its abundant solar radiation, this renewable energy source offers a number of benefits that can transform the way your facility operates.

Can a company sell solar panels in Costa Rica?

Most companies selling solar systems are assembled Asian solar panels with some U.S. made components. In 2016, the Costa Rican government approved a new regulation which allows individuals and companies to produce solar energy (up to 15 percent of the users per district) and sell up to 49 percent of their excess production back to the grid.

Does Costa Rica export solar panels?

The U.S. continues to grow slightly every year, even in a depressed market that slowed after new the VAT was implemented. Exports from Costa Rica are also of imported products from other countries. Most companies selling solar systems are assembled Asian solar panels with some U.S. made components.

Are there private solar companies in Costa Rica?

There are many private companies, most of them members of ACESOLAR (Costa Rican Solar Energy Association), and the CDG (Chamber of Distributed Energy Generation of Costa Rica). They have changed the current legislation opening the market and allowing more solar panels and batteries to be installed.

Who is the target market for solar energy in Costa Rica?

According to the Costa Rican Institute of Electricity (ICE) and the Costa Rican National Power and Light Company (CNFL), both government entities, the target market for solar energy in Costa Rica, remains to be households or

companies that consume between 200kw/h and 3,000kw/h. ICE and CNFL have been installing photovoltaic systems.

Why should you choose a solar system in Costa Rica?

Costa Rica has an ideal climate for solar energy generation, which guarantees a constant and efficient energy production during most of the year. In addition, there are several companies specialized in the installation and maintenance of solar systems, which facilitates the implementation process.
