Cote d Ivoire pack lithium battery factory

Overview

Will a lithium-ion battery energy storage system be installed in Côte d'Ivoire?

A lithium-ion battery energy storage system (BESS) made by Saft will be installed at a 37.5MWp solar PV power plant in Côte d'Ivoire (Ivory Coast). It is the African country's first-ever large-scale solar project and the batteries will be used to smooth and integrate the variable output of the PV modules for export to the local electricity grid.

Who owns lithium Africa?

Lithium Africa, in partnership with Ganfeng Lithium, continues to advance exploration programs across four core regions. The Company is led by a board of directors consisting of CEO Carl Esprey, Sam Pigott and Tyron Breytenbach.

Where are lithium pegmatites found in Africa?

Lithium Africa is exploring for lithium pegmatites across four prospective regions covering over 2,500 km² of exploration assets in Ivory Coast, Guinea, Mali and Zimbabwe. The Company has established a 50/50 joint venture partnership with Ganfeng Lithium to jointly advance exploration in Africa. For further information contact:.

Will lithium Africa go public?

Lithium Africa plans to pursue a public listing over the next 18 months to support the exploration plans and growth strategy. Ganfeng Lithium Group Co Ltd. is a China-based company principally engaged in the production and sales of lithium and lithium battery products.
