Current Status of Telecommunication Base Stations in Yemen

Overview

TeleYemen is the exclusive provider of international telecommunications for Yemen—fixed-line and wireless mobile companies, , and Internet services—and is one of the mobile-phone operators. In 2003 the government-owned Public Telecommunications Corporation assumed full control of TeleYemen, and a year later it awarded a five-year management contract to .

The Houthi group in Yemen announced on Saturday that US airstrikes on the northern provinces of Omran and Saada have resulted in the "complete destruction" of communication stations. What is Telecommunications in Yemen?

Telecommunications in Yemen provides information about the telephone, Internet, radio, and television infrastructure in Yemen. Since unification in 1990, efforts have been made to create a national telecommunications network.

Is Yemen lagging behind in the development of telecommunications?

Compared to the United States, Yemen is massively lagging behind in the development of telecommunications. Under the country code +967, there were a total of 20.73 million connections in 2023. Among them were 20.00 million mobile phones, which corresponds to an average of 0.51 per person. In the US, this figure is 1.2 mobile phones per person.

Is telecommunication a political issue in Yemen?

The control of telecommunication services and associated revenues and taxes has become a political issue in Yemen. In 2019, it was reported that the internationally recognized government had moved Tele Yemen's headquarters from Sana'a into Aden in order to regain control of it.
