Democratic Republic of Congo 5G communication base station inverter grid connection bidding

Overview

How can the DRC bridge the digital divide?

Deploying and operating networks, particularly in deep rural areas, continues to be a significant challenge in the DRC. To bridge the digital divide and expand network coverage in underserved communities, the companies have pledged to jointly construct up to 2,000 new solar-powered base stations over six years, using 2G and 4G technologies.

Does DRC have a mini-grid strategy?

The World Bank Group is working with the government on DRC's strategy on mini-grids and increased focus on delivering mini-grids at scale in the country.

How many people in eastern DRC will have access to electricity?

As a result, over 28,000 households and businesses in eastern DRC will have access to more affordable and reliable electricity. "Though it was a complicated transaction, MIGA worked diligently to innovate and provide guarantees to de-risk this metro-grid investment," said Jessica Stiefler, Senior Underwriter and Distributed Energy Lead at MIGA.

Why is infrastructure development so difficult in DRC?

However, persistent conflicts and a challenging political and economic environment have made infrastructure development difficult. With an electrification rate of just 19%, DRC has the second-highest number of people globally — about 77 million — without access to electricity. Less than 2% of rural areas are electrified.

Is the Democratic Republic of the Congo a good country?

As the largest country in Sub-Saharan Africa by area, the Democratic Republic of the Congo (DRC) is endowed with exceptional natural resources. However, persistent conflicts and a challenging political and economic environment

have made infrastructure development difficult.

What does DRC stand for?

Explore global projects that support economic growth, reduce poverty and improves people's lives. As the largest country in Sub-Saharan Africa by area, the Democratic Republic of the Congo (DRC) is endowed with exceptional natural resources.
