

ContainerPower Energy Solutions

Djibouti professional customized lithium battery pack

Overview

Who makes custom lithium-ion battery packs?

As a pioneer in future-ready power solutions, CMB is your trusted partner for custom lithium-ion battery packs. CMB's 21700 Li-ion battery packs offer advanced lithium-ion battery technology in compact and high-energy-density packaging. They provide superior power and longevity suitable for various applications.

Is a custom battery pack better than a lithium-ion battery pack?

In some instances, a custom NiMH battery pack or custom alkaline battery pack may perform better than a lithium-ion battery pack, while keeping your costs lower. When involving our team of engineers early on in the design process, we can help assist you in choosing the proper custom battery solutions for your needs.

Which lithium-ion cell is best for a custom battery pack?

The 18650 lithium-ion cell is one of the most popular choices for custom battery packs due to its high energy density, reliability, and versatility. To create the ideal custom battery pack with EGBatt, we'll need some key information from you: Let us know what your product or device is.

What is a lithium battery pack design?

The process encompasses basic and advanced lithium battery pack design features, each tailored to meet specific requirements. This includes intrinsically safe designs for harsh environments, custom battery chargers, custom molded enclosures up to IP68 for extreme protection, and complex battery management systems to ensure safety and longevity.

Why are custom lithium-ion batteries in high demand?

Off-the-shelf battery packs rarely meet the exact requirements of modern electronic devices. That's why custom lithium-ion battery solutions are in high

demand. Here are a few key reasons: Size and Dimensions: Standard batteries often don't fit perfectly into electric vehicles, portable electronics, or specialized devices.

Who is Lithium Power?

Lithium Power has comprehensive experience with Lithium-based commercially available cells like NMC, NCA, LFP, and LTO. We come alongside the customer as a true partner to first help define the customer's battery power needs and then optimize the battery pack design.
