Cairo, Egypt, June 15, 2025 – IFC today announced an investment to support Egypt’s first utility-scale battery energy storage system (BESS), deepening its partnership with AMEA Power, a leading renewable energy developer in Africa, the Middle East, and Central Asia, and the Government of Egypt to.

Dubai-based developer Amea Power has agreed to build a 1 GW solar plant with a 600 MWh battery energy storage system (BESS) and an additional 300 MWh BESS. Meanwhile, Norwegian developer Scatec ASA has signed a 25-year power purchase agreement (PPA) for a 1 GW solar array and 100 MW/200 MWh BESS in.

Recently, the Kom Ombo 500 MW PV Expansion and 300 MWh Energy Storage Project—Egypt’s largest standalone energy storage project, surveyed and designed by the Southwest Electric Power Design Institute Co., Ltd. of China Power Engineering Consulting Group—was put into commercial operation, marking a.

Egypt’s government has signed contracts with developer AMEA Power for two large-scale battery energy storage projects, the country’s first. Dubai-headquartered AMEA Power announced yesterday (25 February) that it has signed government Capacity Purchase Agreements (CPAs) for the battery energy.

Mahmoud Esmat, Minister of Electricity and Renewable Energy, has met with Hussain Al Nowais, Chairperson of AMEA Power (part of the UAE’s AlNowais

Investments), at the Ministry of Electricity's headquarters in the New Administrative Capital to explore expanding renewable energy and battery-based.

Cairo, Egypt - In a historic move for North Africa's energy sector, AMEA Power has successfully commissioned Egypt's first-ever utility-scale Battery Energy Storage System (BESS) —a 300 MWh facility integrated with its 500 MW Solar PV plant in the Aswan Governorate. The commissioning was completed.
