Energy storage battery factory in Portugal

Warranty
10 years

LiFePO₄

Intelligent BMS

Wide Temp:
-20°C to 55°C

Overview

According to the latest report on February 21st, battery manufacturer CALB will invest 2 billion euros (approximately Yuan 15.1684 billion) in Sines, Portugal to build a lithium battery factory aimed at providing high-performance energy storage batteries for the European electric vehicle industry. Will a lithium battery factory be built in Portugal?

According to the latest report on February 21st, battery manufacturer CALB will invest 2 billion euros (approximately Yuan 15.1684 billion) in Sines, Portugal to build a lithium battery factory aimed at providing high-performance energy storage batteries for the European electric vehicle industry.

Will Portugal become a leader in EV battery production in Europe?

According to a senior manager at CALB, quoted by Reuters, the factory will position Portugal at the forefront of EV battery production in Europe. "This project will not only create new jobs but also solidify Portugal's role as a leader in the European battery industry," the manager stated. CALB's Global Ambitions and Market Position.

What is China Aviation lithium battery (CALB) doing in Portugal?

China Aviation Lithium Battery (CALB) plans to invest US\$2.09 billion in a 15GWh EV battery factory in Sines, Portugal, set to start operations in 2028. The project aims to create 1,800 jobs and could contribute over 4% to Portugal's GDP.

Will CALB build a battery plant in Portugal?

CALB announced on November 3, 2022, that it signed a memorandum of cooperation with the Portuguese government to build its first production site in Europe. The company's battery project in Portugal was planned at an industrial zone near a port in Sines, which is located in the heart of European logistics, a CALB press release said at the time.

How will CALB's energy storage project affect Portugal's economy?

The project, heralded as a step towards greening the European automotive industry, is expected to contribute over 4% to Portugal's national GDP once it reaches its full production capacity of 15 GWh of energy storage annually. CALB intends to erect five buildings across a 92-hectare plot within the Industrial and Logistics Zone of Sines (ZILS).

What is CALB's first European battery factory?

CALB, one of the world's leading battery manufacturers, has broken ground on its first European factory in Sines, Portugal. With a €2 billion investment and a capacity of 15 GWh, the plant will produce batteries for electric vehicles primarily for the European market, creating 1,800 jobs and boosting Portugal's industrial capabilities.
