Energy storage system shipments by 2025

Overview

InfoLink Consulting has released its 1Q25 global energy storage system (ESS) shipment ranking, based on its energy storage supply chain database. Global ESS shipments reached a new record high of 71.5 GWh.

InfoLink Consulting has released its 1Q25 global energy storage system (ESS) shipment ranking, based on its energy storage supply chain database. Global ESS shipments reached a new record high of 71.5 GWh.

In Q1 2025, China's market showed steady growth, the U.S. market saw front-loaded shipments, and emerging markets gained momentum, driving global energy storage system shipments to a record high of 71.5 GWh. AC Side: Sungrow Tops the List, BYD Energy Storage Enters Top Three The top five global.

Let's cut to the chase: energy storage shipments in 2025 are projected to hit record highs, and everyone from tech geeks to Wall Street investors is paying attention. But why?

Imagine your phone battery, but scaled up to power entire cities. That's the kind of revolution we're talking about. In. Which emerging markets will lead the storage industry in 2025?

In Latin America, momentum was built as storage deployments increased by 42%. In 2025, emerging markets for storage will be on the rise. Saudi Arabia will lead the charge, fuelled by its expansion of solar and wind generation.

What will storage be like in 2025?

Europe saw a pivotal moment when the grid-scale segment experienced a significant surge, surpassing the distributed segment for the first time. In Latin America, momentum was built as storage deployments increased by 42%. In 2025, emerging markets for storage will be on the rise.

How much money did energy storage systems make in 2022?

The energy storage systems reached USD 433 billion, USD 535.8 billion and USD 668.7 billion in 2022, 2023 and 2024 respectively. The pumped hydro technology battery uses excess electricity to pump water from lower to upper reservoir.

Is China entering a new era of energy storage demand?

Mainland China accounts for most of the global energy storage demand, driven in the near term by regional requirements for new utility-scale wind and solar projects to include energy storage capacity. However, the Chinese market is entering an era of change.

What are the top 5 energy storage systems companies in 2024?

Top 5 companies including BYD, General Electric, LG Energy Solution, Siemens and Samsung held a market share of over 40% in 2024. Major key players are working to develop cost-effective and wide range of ESS. Among these companies BYD is one of the largest share holding company in the energy storage systems industry.

Who is the leading battery energy storage system integrator in the world?

Global ESS shipments reached a new record high of 71.5 GWh. The top five global battery energy storage system (BESS) integrators in the AC side for 1Q25 were Sungrow, Tesla, BYD, HyperStrong, and CRRC Zhuzhou Institute. In 1Q25, Sungrow surpassed Tesla to become the global leader, driven by large shipments in the Americas and Middle East.
