

## ContainerPower Energy Solutions

# Finland liquid cooling energy storage project

## Overview

---

The project, the first one in the country utilizing the PowerTitan 2.0, is set to begin construction in March 2025 and will mark a new phase of energy storage development in the region, strengthening grid stability and optimizing renewable energy integration.

The project, the first one in the country utilizing the PowerTitan 2.0, is set to begin construction in March 2025 and will mark a new phase of energy storage development in the region, strengthening grid stability and optimizing renewable energy integration.

Sungrow is set to supply its cutting-edge PowerTitan 2.0 liquid-cooled energy storage system for Renewable Power Capital's 50MW/100MWh Kalanti BESS project in Finland. Thanks to its innovative design, the PowerTitan 2.0 delivers enhanced temperature control, increased efficiency, and long-term.

Fotowatio Renewable Ventures (FRV), part of Jameel Energy, has announced a partnership with AMPTank Energy to deliver a 100MW/200MWh battery storage project named SIMO in Finland. Located near Fingrid's Simojoki substation in the Lapland region, SIMO represents the second phase of FRV's storage.

Winda Energy, a Finnish renewable energy developer, has announced its entry into the energy storage market with a new 30MW/60MWh battery energy storage system (BESS) in Rautavaara, Finland. The project, developed in partnership with Czech energy technology firm Second Foundation, marks Winda.

Finland embarks on a groundbreaking renewable energy storage project, collaborating with NTR and Fluence Energy. The Uusnivala BESS aims to enhance energy resilience and support the nation's net-zero ambitions with innovative technology and significant financial backing. In a significant stride.

SEB Nordic Energy's portfolio company Locus Energy, in collaboration with Ingrid Capacity, proudly announces the groundbreaking of one of Finland's largest battery energy storage system (BESS) in Nivala Municipality, Northern

Ostrobothnia. After the start of commercial operations in 2026, the.

Sungrow, a global leader in PV inverters and energy storage systems (ESS), has partnered with Renewable Power Capital (RPC) to supply its advanced PowerTitan 2.0 liquid-cooled energy storage system for the Kalanti 50MW/100MWh BESS project in Uusikaupunki, southwest Finland. Construction is set to.
