

## ContainerPower Energy Solutions

# Flexible solar sunshade

## Overview

---

These are flexible sun shades made of durable, UV-resistant fabrics supported by a framework of aluminum or steel. They can be opened and closed manually or electronically, depending on the model. What are the advantages of a movable sunshade system?

When folded up, the panels provide extra shade comfort thanks to their position. Advantages: While it offers shading and an aesthetic solution, it also provides easy use with its motorized structure. All models of movable sunshade systems are manufactured entirely from aluminum profiles, except for the motor mechanism.

What are movable sunshade systems made of?

All models of movable sunshade systems are manufactured entirely from aluminum profiles, except for the motor mechanism. These profiles offer high durability and lightness, while providing an aesthetic and functional solution. Coating options are as follows:.

Is solar shading a good choice for your building project?

Solar shading presents an excellent choice for your building project. In this comprehensive guide, we will delve into essential factors to help you make an informed decision when selecting the ideal solar shading solution.

What is a Tanagra aluminum sunshade?

A Tanagra aluminum sunshade is an efficient aesthetic solution for solar protection. The intensity of its strips can be adapted according to the luminance and optimize energetic consumption.

How can the intensity of the Tanagra sunshade be adapted?

The Tanagra aluminum sunshade offers a real efficient aesthetic solution for solar protection. The strip's intensity can be adapted according to the luminance and can optimize energetic consumption.

What material are SUNCLIPS® blades made of?

SUNCLIPS® blades are made of extruded aluminium profiles to be used as solar shading, wall cladding or visual barrier. The SUNCLIPS® Evo range has a more aerodynamic design. SUNCLIPS® Evo has 3 dimensions: . Icarus® blades composed of extruded aluminium profiles applicable as sunshading, cladding or visual barrier.
