Gambia solar panels

Overview

The Jambur Solar Power Station (JSPS), is an operational 23 MW (31,000 hp) in . The power station began commercial operations in March 2024. It is owned and was developed by the government of Gambia, with funding from the European Union, the European Investment Bank and the World Bank. The power generated here is integrated into the Gambian national electricity grid, through the National Water and Electricity Company network.

The Gambia has inaugurated a 23 MW solar plant with 8 MWh of battery storage as part of the Gambia Electricity Restoration and Modernization Project (GERMP), which targets universal electricity access by 2025. The Gambia has commissioned a 23 MW solar plant in Jambur, near the country's west coast.
