

ContainerPower Energy Solutions

Generation-side energy storage manufacturers

Overview

Who makes the best battery energy storage systems?

10. China's Sungrow Power Supply Co. Ltd. Sungrow is a top supplier of energy storage systems and inverter solutions. Sungrow's significant contribution in promoting a sustainable future has been recognized by BloombergNEF, which ranks the company among the top five global integrators of battery energy storage systems in 2024.

Why are energy storage systems important in 2025?

As the global demand for renewable energy surges, Energy Storage System (ESS) manufacturers play a pivotal role in ensuring grid stability, energy efficiency, and sustainable power solutions. In 2025, leading companies are innovating with cutting-edge battery technologies, smart energy management, and scalable storage solutions.

What is grid energy storage?

Gain data-driven insights on Grid Energy Storage, an industry consisting of 3K+ organizations worldwide. We have selected 10 standout innovators from 600+ new Grid Energy Storage companies, advancing the industry with immersion-cooled battery storage, flywheel storage, electric marine propulsion systems, and more.

Who are the top 10 battery energy storage manufacturers in China?

This article will focus on top 10 battery energy storage manufacturers in China including SUNWODA, CATL, GOTION HIGH TECH, EVE, Svolt, FEB, Long T Tech, DYNAVOLT, Guo Chuang, CORNEX, explore how they stand out in the fierce market competition and lead the industry forward. SUNWODA, founded in 1997, is a global leader in lithium-ion batteries.

How many grid energy storage companies are there?

Out of these, 600+ new grid storage companies were founded in the last five

years, witnessing 2020 as the average founding year. On average, each of these companies employs about 15 people. Moreover, the average funding received by these 600+ grid energy storage energy companies per round in the same span is USD 60.7 million.

What are the world's largest battery storage projects?

The Hornsdale Power Reserve and the Victorian Big Battery are two of the largest battery storage projects in the world and were built by the French company Neoen, an independent renewable energy producer. Such projects demonstrate the promise of grid services offered by large storage solutions such as energy arbitrage and frequency control. 9.
