Georgia lithium battery inverter

Overview

Are batteries coming to Georgia's energy mix?

Thursday's celebration to bring batteries into Georgia's energy mix was a highly-anticipated milestone for Georgia Power. A new 65 megawatt battery energy storage system named Mossy Branch Energy Facility in Talbot County is live.

Will Georgia Power offer more battery energy storage projects?

In that filing, Georgia Power signaled its intention to solicit bids for more storage- another 500 MW- in the near future. Battery energy storage projects are popping up all over the U.S., which added nearly 4 GW of storage capacity in the second quarter of this year alone, according to a recent report.

Where is the largest lithium-ion battery recycling facility in North America?

When fully operational, the largest lithium-ion battery recycling facility of its kind in North America will be in the heart of Covington. We are grateful for their selection, and we are proud to partner with them for many years to come."
