Georgia pumped storage solar power station

Overview

Where are Georgia Power's new battery energy storage systems located?

Georgia Power announced today that construction is underway on 765-megawatts (MW) of new battery energy storage systems (BESS) strategically located across Georgia in Bibb, Lowndes, Floyd and Cherokee counties.

How many battery energy storage sites are there in Georgia?

Construction is underway at four new battery energy storage system sites located across Georgia, including one in Bibb County totaling 765 megawatts of power, Georgia Power announced Wednesday in a news release. The 128 megawatt BESS site in Bibb County follows the state's first ever BESS site near Columbus, which entered service in 2024.

Will Georgia Power offer more battery energy storage projects?

In that filing, Georgia Power signaled its intention to solicit bids for more storage- another 500 MW- in the near future. Battery energy storage projects are popping up all over the U.S., which added nearly 4 GW of storage capacity in the second quarter of this year alone, according to a recent report.

Does Georgia Power support Customer-Sited solar?

Georgia Power is also committed to supporting customer-sited generation resources to meet the state's growing energy needs. The 2025 IRP includes two customer expansions of BESS programs including enhancements to the Customer Connected Solar Program and launching a new Customer-Sited Solar Plus Storage Pilot.

What does Georgia Power do to meet Georgia's growing energy needs?

Georgia Power said it's committed to helping customers add their own solar panels and batteries to meet Georgia's growing energy needs. "Georgia Power is also committed to supporting customer-sited generation resources to meet

the state's growing energy needs," the release reads.

How does Georgia Power work with the Georgia PSC?

Georgia Power continues to work with the Georgia PSC to procure and develop BESS projects across Georgia.
