

ContainerPower Energy Solutions

German containerized energy storage tank supplier

Overview

Why should you invest in kritis-capable data servers in Germany?

Data servers in Germany and KRITIS-capable software are designed to effectively protect the new battery storage solution against cyber attacks. In addition, a world-first thermal runaway propagation prevention system ensures it's a safe investment.

What is the new SBB battery container?

The new SBB 1.5 battery container with 5.26 MWh storage capacity will be compatible with various European inverters and will be launched with exceptional performance and guarantee features. With the new storage solution, public utilities can also reliably provide grid services and participate in energy trading. [Overview of our press releases.](#)

What types of energy storage systems are available?

From 10 kWh to 30 MWh outputs, connected to low or high voltage, on-grid or off-grid, in combination with solar, wind, hydro or combined heat and power sources – our broad product portfolio of industrial and commercial energy storage systems covers the full range of applications and can be individually adapted to your requirements.

How many high-performance hydrogen storage tanks did Vako deliver?

VAKO GmbH & Co. KG delivered a total of 6 high-performance hydrogen storage tanks for IBEDROLA in Spain at the beginning of 2022, making it part of one of the largest electrolysis plants in Europe. [Read more.](#)

Should large-scale energy storage systems be connected to the medium- and high-voltage grid?

Distribution grid operators are receiving a large number of requests to connect large-scale energy storage systems to the medium- and high-voltage grid. This has been published by Bayernwerk Netz, Bavaria's largest

distribution system operator, and Mitnetz Strom.
