

## ContainerPower Energy Solutions

# Guinea s largest battery energy storage power station

## Overview

---

This page lists the main power stations in contributing to the public power supply. There are also a number of private power plants supplying specific industrial users such as mines and refineries. Guinea is considered to have considerable renewable energy potential. Schemes at an advanced state of development are included.

The Supercharger station features 168 stalls, making it the largest in the world. It operates entirely off-grid, powered by solar energy and battery storage. This facility represents a shift in how we think about EV charging and sustainability.
