# How long is the warranty period for Huijue solar inverters

## Overview

---

Long-term warranty support: The standard warranty period is 12 years, which is much higher than the industry average, reflecting HJ Group's confidence in product quality and commitment to customers. Residential rooftop is the main application scenario of micro inverter.

Long-term warranty support: The standard warranty period is 12 years, which is much higher than the industry average, reflecting HJ Group's confidence in product quality and commitment to customers. Residential rooftop is the main application scenario of micro inverter.

For example, the SolarEdge inverter warranty covers string inverters for 12 years by default, with the option to extend coverage to 20 or even 25 years depending on the model. These inverter warranty periods protect you from defects and premature failures, but the process for filing claims isn't.

Inverter warranties vary by manufacturer and inverter type. String inverters typically come with 10-12 years of warranty coverage, whereas microinverters and power optimizers are often covered for 25 years. Labor and shipping expenses are generally not included in solar inverter warranties, but.

How long is the warranty for solar inverters?

The warranty period for solar inverters typically spans 5 to 10 years, depending on the manufacturer and model. 1. Manufacturers often provide options for extended warranties —2. High-quality inverters tend to have longer warranty durations—3. Regular.

As a professional manufacturer in the field of photovoltaic inverters, HJ Group has launched the HJ-MG series micro inverters, committed to providing high-quality distributed photovoltaic power generation products to global users. In terms of reliability, the HJ-MG series micro inverters use.

Transferability: Several solar inverters having a warranty period of 25 to 30 years, offer transfer to new homeowners. However, some companies might charge a transfer fee by asking for all the relevant documentation and warrant

the transfer process. 2. Installer Certification Requirement: Some.

How long is an inverter warranty?

Solar inverters are usually warrantied for a period ranging from 5 to 15 years, with an average standard warranty period of 10 years. Some companies offer the possibility to extend this period to up to 20 years. See the table below for a sample list of inverter.
