How much does solar cost in South America

Overview

In 2023, the average installed cost of utility-scale photovoltaics in Brazil amounted to 727 U.S. dollars per kilowatt. Other countries in Latin America registered higher installed costs. Which country will dominate the solar photovoltaic market in South America?

Brazil is expected to dominate the solar photovoltaic market in South America during the forecast period. This section covers the major market trends shaping the South America Solar Photovoltaic Market according to our research experts:.

Will Brazil dominate the South America solar PV market?

Overall, Brazil's solar power sector is set to experience a decent growth, and is likely to dominate the South America solar PV market during the forecast period. The South America solar photovoltaic market is fragmented.

What are the key drivers of South America solar photovoltaic market?

South America solar photovoltaic market is expected to grow at a CAGR of more than 11% during the forecast period. The primary drivers of the market include supportive government policies, rising demand for renewable energy, efforts to reduce GHG emissions, and the declining cost of solar PV systems.

What is South America's largest solar photovoltaic project?

South America's largest solar photovoltaic project is underway in Brazil. Enel Green Power has started operations of a 475 MW section of Sao Goncalo solar photovoltaic plant in the north-east of Brazil has the capacity to produce more than 1,200 gigawatt-hours (GWh) per year when fully functional.

Which countries are leading the way in solar energy in South America?

Brazil, Chile, Argentina, and Peru are leading the way in solar energy in South America, as the climatic conditions in these countries support high irradiation, which is favorable for the generation of solar energy.

Which segment holds the largest share in the solar PV market?

The ground-mounted segment holds the largest share than the rooftop segment in the solar PV market, due to the presence of large-scale solar PV projects in the ground-mounted segment.
