Solar Panels: These are the most visible components of a solar system. Solar panels convert sunlight into direct current (DC) electricity. The efficiency of these panels can vary, but in Sri Lanka, with its average solar irradiation of around 4.5 to 5.5 sun hours per day, solar panels can generate significant amounts of electricity.

Are solar panels tax deductible in Sri Lanka?

Government Incentives: Although there are no specific subsidies for solar systems in Sri Lanka, homeowners can deduct a portion of installation costs from their taxable income—the solar industry benefits from tariffs supporting energy adoption.

How long does a solar installation last in Sri Lanka?

The payback period for industrial solar installations in Sri Lanka typically ranges from 3 to 4 years. Efficient project designs and use of high-quality components contribute to favorable ROI. The upfront costs for a factory-sized solar installation can be significant.

How much does solar energy cost in India?

The customer will be paid Rs 22.0 per unit for the first 7 years and Rs 15.50 per unit from the 8th to 20th year (subject to changes) for exported energy. Solar energy, derived from the sun's rays, is a renewable and inexhaustible resource that offers numerous benefits for both residential and industrial applications.

Are residential solar systems a viable solution in Sri Lanka?

As energy costs continue to rise and concerns about environmental sustainability grow, many homeowners in Sri Lanka consider residential solar systems as a viable solution. A well-designed solar power system can significantly reduce electricity bills, contribute to environmental sustainability, and even provide a backup power source during outages.

Can solar power save you money?

While not directly related to solar panels, energy savings from solar power can free up household budgets, allowing homeowners to invest in other essential services like sewage cleaning. A clean and efficient sewage system contributes to the overall health and maintenance of the home.
