Our products revolutionize energy storage solutions for base stations, ensuring unparalleled reliability and efficiency in network operations. Lithium Deep Cycle Battery Australia Lithium Deep Cycle Battery Australia Lithium Hydroxide CIF CJK (Fastmarkets) Overview Store batteries with confidence.

Are battery units rack-mounted or cabinet-mounted?

Based on the size, the batteries are rack-mounted if they are above 100 AH and used in cabinets if they are below that level. The number of battery units and the respective size of the battery determines rack or cabinet usage. What are external. How do you put a battery cabinet aside a ups?

Carefully slide the battery cabinet off the pallet. Now the battery cabinet is ready to be placed beside the UPS. Both sides can be used for battery cabinet placement but for easier service access to UPS, on the 93PM 30-150 kW UPS right side is preferred, and on the 93PM 160-200 kW left side is preferred.

Is the battery cabinet safe?

The properly installed enclosure is earthed and IP21 rated against foreign objects and is safe to operate. However, only qualified personnel are allowed to install and service the battery cabinet. This equipment contains LETHAL VOLTAGES. All repairs and service should be performed by AUTHORIZED SERVICE PERSONNEL ONLY.

What if the battery cabinet is too dusty?

Excessive amount of dust in the operating environment of the battery cabinet may cause damage or lead to malfunction. The battery cabinet should always be protected from the outside weather and sunshine. In order to maximize battery service life time, the recommended operating temperature range is from +20 to +25 oC.

Can 93p/e external battery cabinet be used with other ups?

Other UPSs may not be fully compatible with 93P/E External Battery Cabinet. Check UPS manual for the requirements for the external battery supply. The components inside the cabinet are secured to a sturdy metal frame. All repairable parts and assemblies are located for easy removal, with very little disassembly.

How many battery cabinets are available for the 93pm and 93e?

For the 93PM and 93E product lines, there are two different battery cabinets: Small and Large Battery Cabinet. The battery block configuration in the chosen battery cabinet must always match the UPS requirement. Used battery configuration must be inserted into UPS settings during commissioning or start-up.

How do battery cabinets work?

The battery cabinets use convection cooling to regulate internal component temperature. Air inlets are at the bottom and in Large Battery Cabinet also in the front of the cabinet and outlets are on the rear of the cabinet. Clearance must be allowed in front and rear of each cabinet for proper air circulation.
