How to replace the mobile base station battery

Overview

How do you replace a battery in a base station?

To replace batteries in a SimpliSafe base station, rotate the base counterclockwise (CCW) to remove it, then remove the batteries and replace them while ensuring the (-) and (+) orientation. When disposing of NiMH batteries, they should be recycled.

What batteries do I need to replace my SimpliSafe base station?

To replace the batteries in your SimpliSafe base station, you need QTY (4) AA nickel-metal hydride (NiMH) rechargeable batteries. Do not use Alkaline or any other non-NiMH batteries. The batteries supplied from SimpliSafe are rated at 1000mAh capacity (very low).

How many batteries does the base station take?

The Base Station takes four (4) 1.2V, 1300mAh nickel-metal hydride (NiMH) rechargeable batteries. Regular alkaline batteries should never be inserted into the Base Station, as they may damage the device. Once you have acquired the necessary NiMH rechargeable batteries, you can follow the steps below to replace them:.

How do you remove a NiMH battery from a base station?

Remove the power plug from the bottom of the base station to expose one screw. Remove the screw, rotate the base counterclockwise, and it will pull off. Remove the NiMH batteries and replace them while ensuring the correct (-) and (+) orientation. When disposing of NiMH batteries, they should be recycled.

How do I replace a NiMH rechargeable battery?

Once you have acquired the necessary NiMH rechargeable batteries, you can follow the steps below to replace them: NEVER insert regular alkaline batteries into the Base Station as they may damage the device. Plug your Base Station

back into power. Was this helpful?
