The ASEAN Energy Business Forum (AEBF-25) took place in Kuala Lumpur, Malaysia from October 15 to 17, 2025, focusing on the themes of regional energy integration and the transition towards clean, sustainable energy. Drawing over 1,500 participants, including energy ministers and industry leaders.

Huawei and Keppel have signed a Memorandum of Understanding (MoU) to develop solar and battery energy storage system (BESS) projects for the data center and other high-energy-consuming sectors, initially focusing on the ASEAN region. The MoU will see the companies explore the design and development.

[Kuala Lumpur, Malaysia, October 17, 2025] As ASEAN accelerates its green

energy transition and digitalization, the region is focused on building a sustainable, stable, and smart future energy system. The ASEAN Energy Business Forum (AEBF-25) was held in Kuala Lumpur, Malaysia from October 15 to.

Energy storage is “essential” to overcome the intermittency of renewable energy sources such as solar power, says Cindy Lim, chief executive officer of Keppel’s infrastructure division. PHOTO: PIXABAY Energy storage is “essential” to overcome the intermittency of renewable energy sources such as.
