ONE-STOP SOLUTION

65kWh 30kW

130kWh 30kW

130kWh 60kW

Overview

Turkish energy firm Margun Enerji, in cooperation Partner EGS and Huawei, is preparing to add a 2 megawatt-hour capacity battery energy storage system to its solar power plant (SPP) in western Türkiye, which boasts a peak installed capacity of 20.17 megawatts.

Turkish energy firm Margun Enerji, in cooperation Partner EGS and Huawei, is preparing to add a 2 megawatt-hour capacity battery energy storage system to its solar power plant (SPP) in western Türkiye, which boasts a peak installed capacity of 20.17 megawatts.

Renewables companies Partner EGS, Polat Enerji agree to work on a BESS project at Soma RES wind farm, with Huawei as BESS supplier. Image: Polat Enerji The government of Turkey, currently processing applications for large-scale energy storage facilities at renewable energy plants, will raise import.

Aiming to lower balancing costs, Polat Enerji said it would integrate an energy storage system into its wind park Soma, the largest in Turkey. It will be the first grid-scale battery facility in the country. Since giving priority in 2022 to wind and solar power projects that include energy storage.

Turkish energy firm Margun Enerji, in cooperation Partner EGS and Huawei, is preparing to add a 2 megawatt-hour capacity battery energy storage system to its solar power plant (SPP) in western Türkiye, which boasts a peak installed capacity of 20.17 megawatts. In a statement, Margun Enerji.

Ozmen-1 SPP has a long-term generation license within the scope of Turkey's Electricity Market Law whereby it can sell electricity under a state purchase guarantee at a price of US\$0.13 cents per kWh for a 10-year period, which started in October 2020. New electricity market rules brought in last.

Huawei Turkey and Liva Energy, Masfen Energy, Mensis Energy, Yenelis and Zes Solar signed an agreement on February 27 to formalize the cooperation and announced it at the 2023 Mobile World Congress in Barcelona, Spain. Under the agreement, the Turkish companies will receive 2 GWh (GWh) from.

The project, considered the world's largest solar-storage project, will install 3.5GW of solar photovoltaic capacity and a 4.5GWh battery storage system. The project has commenced in November 2024. Huawei has recently signed the contract with SEPCOIII at Global Digital Power Summit 2021 in Dubai.
