

ContainerPower Energy Solutions

Install the communication base station inverter and connect it to the grid

51.2V 150AH, 7.68KWH

Overview

For DC wiring, connect the positive and negative wires from the solar panels to the inverter's DC input. For AC wiring, connect the inverter's AC output to the main electrical panel and the grid connection point. Ensure all connections are secure and follow the manufacturer's instructions closely.

Install the communication base station inverter and connect it to the
