

## ContainerPower Energy Solutions

# Ireland Lithium Energy Storage Power Supply Specifications

## Overview

---

Which battery energy storage systems are available in Ireland?

The Kylemore Battery Energy Storage System in Dublin went into operation in 2023 and has the capability of providing 30MW of fast-acting storage. The South Wall Battery Energy Storage System went live in 2023 and has the capability of providing 30MW of fast-acting energy storage.

How many MW of battery storage capacity are there in Ireland?

We currently have more than 300MWs of battery storage capacity in operation in Ireland, making it one of the largest battery portfolios in Europe. We plan to develop a pipeline of large scale battery projects, as well as additional renewable enabling technologies.

Are battery energy storage systems a 'great achievement' in Ireland?

ESB Networks described the project as a “great achievement for battery storage” in Ireland. Battery energy storage systems, often referred to as Bess, are regarded as a vital part of the Ireland’s fledgling renewable energy sector and demand for them has never been higher.

Is lithium ion battery a safe energy storage system?

A global approach to hazard management in the development of energy storage projects has made the lithium-ion battery one of the safest types of energy storage system. 3. Introduction to Lithium-Ion Battery Energy Storage Systems A lithium-ion battery or li-ion battery (abbreviated as LIB) is a type of rechargeable battery.

How many GW of electricity does Ireland have?

ESB Networks also recently announced that Ireland’s electricity grid now has 1 gigawatt (GW), or 1,000 MW, of electricity storage connected to Ireland’s network. This figure includes 731.5MW of battery energy storage system projects and 292MW from Turlough Hill pumped storage power station.

Where is Ireland's First 4-hour battery energy storage system located?

Co-located at Statkraft's Cushaling Wind Farm in Co Offaly, this project is Ireland's first 4-hour battery energy storage system. Located in Co Derry, construction of this project began in 2025. This project is one of four Synchronous Compensator projects currently being developed by Statkraft Ireland.
